PHYSICAL SCIENCES GRADE 10 2017 COMMON TESTS AND ...

Science in a broad sense existed before the modern era and in many historical civilizations. Modern science is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge, rather than a specialized word for the pursuit of such knowledge. In particular, it was the ...

3.. DiscussionWe found significant sexual dimorphism in physical aggression, verbal aggression and hostility but no difference in anger. Physical aggression was the most sexually dimorphic of the aggression indices ($d = 1.05$). These results agree with Buss and Perry (1992), who found hostility, verbal, and physical aggression, but not anger to be sexually dimorphic, and trait physical ...

The majority of studies of genetic association with disease have been performed in Europeans. This European bias has important implications for risk prediction of diseases across global populations. In this commentary, we justify the need to study more diverse populations using both empirical examples and theoretical reasoning.
