Writing a Guided Practice section is the fourth step in writing an effective and strong 8-step lesson plan for the elementary school classroom. In the Guided Practice section of your written lesson plan, you will outline how your students will demonstrate that they have grasped the skills, concepts, and modeling that you presented to them in the Direct Instruction portion of the lesson.

Going through guided practice with the class allows me to identify which students might need extra support during work time. For Problem 3 students need to determine which inequality symbol is needed for the solution set. If students struggle with this problem type, I try a more scaffolded approach by having them start without a variable:
