The Bachelor of Science (BSc) is a three-year undergraduate degree which enables students to develop their interests in a science subject (science major) and allows the flexibility to combine their major subject with other science subjects, as well as subjects from other disciplines.

Bachelor of Science (BSc), Qualifications, University of ...

Microbiology is the study of all living organisms that are too small to be visible with the naked eye. This includes bacteria, archaea, viruses, fungi, prions, protozoa and algae, collectively known as 'microbes'.

Annual Conference 2019 | Microbiology Society

The following is a list of people who are considered a "father" or "mother" (or "founding father" or "founding mother") of a scientific field. Such people are generally regarded to have made the first significant contributions to and/or delineation of that field; they may also be seen as "a" rather than "the" father or mother of the field. Debate over who merits the title can be perennial.

List of people considered father or mother of a scientific ...

Here we offer advice and information to help you determine whether your research is considered human subjects, and if it is, how to understand and comply with regulations at all phases of application and award, including NIAID requirements. After you determine your research qualifies as human subjects, it will help you decide what to include in your application and what other items to comply ...
