Laboratory studies are not specific for hernia but may be useful for general medical evaluation. Imaging studies are not required in the normal workup of a hernia [8, 9] ; however, radiography, computed tomography (CT), or ultrasonography may be considered in certain circumstances. Sigmoidoscopy is no longer recommended as a screening test.

Abdominal Hernias Workup: Approach Considerations ...

This chapter provides guidelines for the environment, housing, and management of laboratory animals used or produced for research, testing, and teaching. These guidelines are applicable across species and are relatively general; additional information should be sought about how to apply them to meet the specific needs of any species, strain, or use (see Appendix A for references).

The history of medicine shows how societies have changed in their approach to illness and disease from ancient times to the present. Early medical traditions include those of Babylon, China, Egypt and Mesopotamia. The Hippocratic Oath was written in ancient Greece in the 5th century BCE, and is a direct inspiration for oaths of office that physicians swear upon entry into the profession today.
