Students will be able to access their course eTextbooks or Digital Content on the first day of classes through their online course. However, they are also given the opportunity to Opt-Out of using the Digital Text during the first two weeks of class which will cause them to lose access to the Digital Text. They will then be responsible for obtaining a print copy of the text.

The scapula, also known as the shoulder blade, is a flat triangular bone located at the back of the trunk and resides over the posterior surface of ribs two to seven. The scapula, along with the clavicle and the manubrium of the sternum, make up the pectoral (shoulder) girdle which connects the upper limb of the appendicular skeleton to the axial skeleton.

The pharynx (plural: pharynges) is the part of the throat behind the mouth and nasal cavity and above the oesophagus and larynx, or the tubes going down to the stomach and the lungs. It is found in vertebrates and invertebrates, though its structure varies across species. In humans, the pharynx is part of the digestive system and the conducting zone of the respiratory system.

Pharynx - Wikipedia

Textbook rental is an easy way for college students to save money on their ever increasing higher-

education expenses. Simply take your professors' book lists and enter the titles or ISBNs into the search bar above to find low prices on your required textbooks for rent.

Een lymfocyt is een type witte bloedcel dat in het rode beenmerg wordt gevormd uit een lymfoïde voorlopercel en rijpt in de lymfoïde organen. Met een lichtmicroscop zijn grote en kleine lymfocyten te onderscheiden. Lymfocyten spelen een belangrijke rol in het verworven immuunsysteem. Het falen van dit systeem kan ernstige consequenties tot gevolg hebben (bijvoorbeeld hiv en leukemie).
