Last year in July, I was contacted by Modern Tailor to review one of their online made-to-measure shirts. The representative suggested that I pick out one standard fabric first, and have a shirt made before I choose a second shirt of a more expensive fabric. Since we review shirts on a regular basis, I agreed to do so even though I did not have the highest hopes in their quality; their least ...

If it is the distinguishing factor between a suit that looks like you stole it off the racks at Ross and a suit that seems like it was tailor-made for you and you alone. Without a good-fitting piece of clothing, even the most wealthy, dapper man in the world would look like a slob. The reason most well-to-do, affluent men in the world look like a million bucks day in and day out is because they ...

A tape measure or measuring tape is a flexible ruler and used to measure distance.. It consists of a ribbon of cloth, plastic, fibre glass, or metal strip with linear-measurement markings. It is a common measuring tool. Its design allows for a measure of great length to be easily carried in pocket or toolkit and permits one to measure around curves or corners.

In the history of measurement many distance units have been used which were based on human body parts such as the cubit, hand and foot and these units varied in length by era and location. In the late 18th century the metric system came into use and has been adopted to varying degrees in almost all countries in the world. The oldest preserved measuring rod is a copper-alloy bar that dates from ...
