Adults with psychiatric conditions who are admitted as inpatients need to be assessed carefully to ensure they receive the best possible care. Although staff nurses don't make the diagnosis, your assessment can help the psychiatrist and other treatment team members understand the patient's struggle. This is particularly important as many inpatients are hospitalized involuntarily and timely ...

Kate Peterson, an intensive care unit (ICU) director, starts her monthly staff meeting with sobering news: "Our hospital is losing money despite the increase in patient volume," she states. "Reimbursement for care has been declining, and we're seeing more uninsured patients who can't pay their bills. So our unit's request for new monitors has been put on hold for this year.
