Students will be able to access their course eTextbooks or Digital Content on the first day of classes through their online course. However, they are also given the opportunity to Opt-Out of using the Digital Text during the first two weeks of class which will cause them to lose access to the Digital Text. They will then be responsible for obtaining a print copy of the text.

A statement, hypothesis, or theory has falsifiability (or is falsifiable) if it is contradicted by a basic statement, which, in an eventual successful or failed falsification, must respectively correspond to a true or hypothetical observation. For example, the claim "all swans are white and have always been white" is falsifiable since it is contradicted by this basic statement: "In 1697 ...

Bayesian inference is a method of statistical inference in which Bayes' theorem is used to update the probability for a hypothesis as more evidence or information becomes available. Bayesian inference is an important technique in statistics, and especially in mathematical statistics. Bayesian updating is particularly important in the dynamic analysis of a sequence of data.
