I have an older MerCruiser with a Mercury ride guide rotary steering system. The cable is very tight and needs to be replaced. This system including the cable is no longer available. Is there a direct replacement cable out there that will work with this system? Or do I need to replace the entire helm and cable to a current model.

We found the steering cable split and rusted, and wound up cutting it into a couple of pieces to get it out. I found new Ride Guide cables, but I need to change out the cable on the rack, and it doesn't want to come apart. I need to know how to get the cable off of the rack, and also where to make the measurement for cable length.

The merc ride guide, in my opinion is as good as it gets for manual steering. There is of course the problem of the cables NLA. I have just finished building my new system. I used dual ride guide square racks and two new uflex cable assys. \$82.00 each they come with a rack built on them. You will not use the rack!
