Intellectual disability (ID), also known as general learning disability and mental retardation (MR), is a generalized neurodevelopmental disorder characterized by significantly impaired intellectual and adaptive functioning. It is defined by an IQ under 70 in addition to deficits in two or more adaptive behaviors that affect everyday, general living.. Once focused almost entirely on cognition ...

Intellectual disability - Wikipedia

Preamble: Paper-based records have been in existence for centuries* and their gradual replacement by computer-based records has been slowly underway for over twenty years in western healthcare systems. Computerised information systems have not achieved the same degree of penetration in healthcare as that seen in other sectors such as finance, transport and the manufacturing and retail industries.

Electronic Medical Records - openclinical.org

Medical diagnosis (abbreviated Dx or D S) is the process of determining which disease or condition explains a person's symptoms and signs. It is most often referred to as diagnosis with the medical context being implicit. The information required for diagnosis is typically collected from a history and physical examination of the person seeking medical care. . Often, one or more diagnostic ...
