Welcome to AP Biology! On this site, you will find all the resources you need to be successful in AP Biology. Below are some resources that will help you on your journey.

Class Information - Mr. Custer's Science Classroom

A chromosome is a deoxyribonucleic acid molecule with part or all of the genetic material of an organism. Most eukaryotic chromosomes include packaging proteins which, aided by chaperone proteins, bind to and condense the DNA molecule to prevent it from becoming an unmanageable tangle.. Chromosomes are normally visible under a light microscope only when the cell is undergoing the metaphase of ...

Chromosome - Wikipedia

Below is a list of chapters from the Campbell's Biology, 8th Edition textbook that we have slides for. These slides will cover all of the key points of the chapter and will be useful when studying for the AP Biology exam or any other Biology test.

Campbell's Biology, 8th Edition | CourseNotes

In this survey text, directed at those not majoring in biology, we dispel the assumption that a little learning is a dangerous thing. We hope that by skimming the surface of a very deep subject, biology, we may inspire you to drink more deeply and make more informed choices relating to your health, the environment, politics, and the greatest subject that all of us are entwined in, life itself.
