Health literacy is the ability to obtain, read, understand, and use healthcare information in order to make appropriate health decisions and follow instructions for treatment. There are multiple definitions of health literacy, in part, because health literacy involves both the context (or setting) in which health literacy demands are made (e.g., health care, media, internet or fitness facility ...

Health literacy - Wikipedia

A major aspect of the debate over abortion concerns the use of terminology. In keeping with Just Facts' Standards of Credibility, this research uses language that is clear and precise. Thus, expressions such as "pro-life" and "pro-choice" are replaced by words that describe specific positions.
