The somewhat heterodox views about debt and taxes that will be presented here have evolved over the last few years in the course of countless discussions with several of my present and former colleagues in the Finance group at Chicago—Fischer Black, Robert Hamada, Roger Ibbotson, Myron Scholes and especially Eugene Fama. Charles Upton and Joseph Williams have also been particularly helpful ...

DEBT AND TAXES* - Miller - 1977 - The Journal of Finance ...

One simple definition of management accounting is the provision of financial and non-financial decision-making information to managers. According to the Institute of Management Accountants (IMA): "Management accounting is a profession that involves partnering in management decision making, devising planning and performance management systems, and providing expertise in financial reporting and ...

Advances in Mathematical Finance and Applications

One of the fundamental concepts in finance is arbitrage, defined as "the simultaneous purchase and sale of the same, or essentially similar, security in two different markets for advantageously different prices" (Sharpe and Alexander (1990)). Theoretically speaking, such arbitrage requires no capital and entails no risk. When an arbitrageur buys a cheaper security and sells a more ...
