The cables that belong to the aftermarket fog light switch are 3(dark red n black, orange and black). Take the dark red cable to the column, with the help of an old metal hanger. Keep the orange and the black one there. Thanks to M3-GT, I was able to find out which one was the cable that controlled the fog lights.

I'm installing new fog lights on my 2012 mazda3 (did not have stock fog lights). I'm stuck on the wiring. Lights are installed, wire harness connected to each light, and that one is connected to the harness that connects to the switch. Not 100% sure what wires need to connect where, and also how/where to get the switch plug through the firewall.
