Gravitoelectromagnetism. In the weak-field and slow motion limit of general relativity, the phenomenon of gravitoelectromagnetism (in short "GEM") occurs, creating a parallel between gravitation and electromagnetism. The gravitational field is the analogue of the electric field, while the gravitomagnetic field, which results from circulations of masses due to their angular momentum, is the ...

This site is intended as a resource for university students in the mathematical sciences. Books are recommended on the basis of readability and other pedagogical value. Topics range from number theory to relativity to how to study calculus.

Books in the Mathematical Sciences

It so often happens that I receive mail - well-intended but totally useless - by amateur physicists who believe to have solved the world. They believe this, only because they understand totally nothing about the real way problems are solved in Modern Physics.

Gerard 't Hooft, Theoretical Physics as a Challenge

Dear Twitpic Community - thank you for all the wonderful photos you have taken over the years. We have now placed Twitpic in an archived state.

The Sun produces energy by nuclear fusion (Suplee. 2009. Page 27). Part of the internal energy of the Sun is kinetic energy or thermal energy which reaches about 27 MeV per 4He nucleon (Maoz. 2007. Pp. 48-49). The thermal energy released from the Sun is transformed into energy in transit or heat (Suplee. 2009. Pp. 28-30 and Maoz. 2007. Page 49).

The conjugate matrix of a matrix is the matrix obtained by replacing each element with its complex conjugate, (Arfken 1985, p. 210).. The complex conjugate is implemented in the Wolfram Language as Conjugate[z].. Note that there are several notations in common use for the complex conjugate. Applied physics and engineering texts tend to prefer \bar{z} , while most modern math and theoretical physics ...
