Mechanical Engineering. Tinkerers, inventors and problem solvers — those with a creative vision for how to develop, build or improve a machine or mechanical process — are ideally suited for a degree in mechanical engineering.

SVSU - Mechanical Engineering

A fastener (US English) or fastening (UK English) is a hardware device that mechanically joins or affixes two or more objects together. In general, fasteners are used to create non-permanent joints; that is, joints that can be removed or dismantled without damaging the joining components. Welding is an example of creating permanent joints. Steel fasteners are usually made of stainless steel ...
