Serious Accident : Case 2 - □□□□

The characteristics of each fibre rope are governed primarily by the material properties, which may be enhanced or moderated during the production process. However, rope selection is ultimately a balancing act between the characteristics of the material, the rope construction, vessel requirements, operating conditions, environmental and safety concerns and of course, cost.

4 Turntable vs Turret CALM Buoys 4.1 Key Advantages of a Turret Buoy: The hawser load is directly transferred into the buoy body. Due to the large mass of the buoy body (incl. deckhouse and all equipment) and the added mass of the water around the buoy body, loads and vibrations from the hawser are transferred to the main bearing in a significantly reduced way.
