Management (or managing) is the administration of an organization, whether it is a business, a not-
for-profit organization, or government body. Management includes the activities of setting the
strategy of an organization and coordinating the efforts of its employees (or of volunteers) to
accomplish its objectives through the application of available resources, such as financial, natural ...

Microeconomics (from Greek prefix mikro-meaning "small" + economics) is a branch of economics
that studies the behaviour of individuals and firms in making decisions regarding the allocation of
scarce resources and the interactions among these individuals and firms.. One goal of
microeconomics is to analyze the market mechanisms that establish relative prices among goods
and services and ...

Kurokawa et al. estimate that PV cells installed on 4% of the surface area of the world's deserts would produce enough electricity to meet the world's current energy consumption. Similarly, EPIA estimates that just 0.71% of the European land mass, covered with current PV modules, will meet the continent's entire electricity consumption. In many regions of the world 1 km² of land is enough to ...
