In business and engineering, new product development (NPD) covers the complete process of bringing a new product to market. A central aspect of NPD is product design, along with various business considerations. New product development is described broadly as the transformation of a market opportunity into a product available for sale. The product can be tangible (something physical which one ...

New product development - Wikipedia

Ecosystems are everywhere, not confined to natural environments — increasingly, we see businesses, public sector institutions, and third-sector organizations all moving beyond their traditional operational borders and creating or participating in new, flexible, and adaptive networks of enterprises jointly pursuing ambitious purposes.
